PHYP200X

45° Back Hyperextension

The Powerline PHYP200X 45° Back Hyperextension is a combination inverted back extension and oblique flexor, set at an exact 45° angle for ultimate conditioning. Strengthen your lower back safely and comfortably on the strongest 45° Hyper available. Telescoping midsection pads adjust to all size users and feature thick, double stitched pads for comfort and support. Over-sized 8" foam rollers hold you securely in place. Fully adjustable 4" thick midsection pads provide maximum comfort for all size users. Relieves lower back pain, fights compression fatigue, increases flexibility and circulation.
