

MULTI-FLIGHT ATTACHMENT

MX1189

20 Adjustment Points

Interchangeable Handle and Pad

- Attaches to the Universal Series Machines.
- Uses Cable Resistance.

The Universal Multi-Flight Attachment is the ultimate rotational attachment. The multi-purpose attachment can be used for deltoid raises, front should raises, pectoral flies, hip abductions, hip adductions, rear kicks, knee raises, strengthen your neck and countless other exercises. The attachment connects to the Universal Series Machines (Universal Trainer, Dynamic Trainer, Universal 1) and uses the cable and weight stack for resistance. The 22 adjustment points allows the user to target specific muscles during the exercises. The attachment comes with an interchangeable handle or leg pad.
